## Premium Information

The monthly premium rates for BlueElite are on the front of this page. To determine a rate:

1. Locate the plan that interests you.
2. Find your age on the rate chart for the plan you select. Use the age you were on June 1 prior to the effective date of your policy.
3. The monthly rate for each plan is listed on your age line.
4. These rates will increase by 10% if tobacco rates apply to you.

During Open Enrollment and Guarantee Issue periods, the best rates apply. These best rates do continue at each subsequent renewal for the life of the policy.

Your premium rate is based on your age as of June 1 prior to the effective date of your coverage. Once you start paying your premium, it will stay the same until the following June 1 unless you move outside the state of Tennessee. Although you may have a birthday during the year, your premium rate will not increase until June 1 of the following year.

Example: You select Plan D in April when you are 66 years old. On the preceding June 1, you were 65 years old. You will be charged the premium rate for a 65-year-old until the next June 1.

Your premium rate can be increased otherwise only if the rate is increased for all other BlueElite customers with the same plan and age as yourself or you move out of the state of Tennessee. Since premium rates are determined by the cost of benefits for BlueElite customers, the rates shown here could change. Our rates are approved by the Tennessee Department of Commerce and Insurance to ensure they are in line with claims cost. You will receive a 30-day advance notice of any change in your rate.
